alex_xela Hey there! I'm so excited to share with you my new workspace and how I decorated it. It's very nice, and I love working here every day. It never gets boring.

First of all, let's talk about the colors. I chose a light orange for the walls because it's my favorite color, and it makes me feel happy and calm. Then, I added some white shelves for my books, plants, and other things. The white really matches orange, and it gives the room a clean and fresh look.

I also have a few in my workspace. There is a small succulent on my desk, and I also have a hanging plant near the window. Plants are great because they add life to the room and make the air feel cleaner. Plus, they're just really pretty!

Another thing I love about my workspace is the natural light. I made sure to put my desk near the window so that I can get as much sunlight as possible. Natural light is not only good for taking photos (I love sharing my workspace on Instagram), but it also helps me stay focused and motivated throughout the day.

Lastly, there are a few motivational quotes on the wall. They remind me to stay positive and keep going, especially when I'm stressed and busy with work.

So that's my perfect workspace! Let me know what you think in the comments below!

5 Imagine your perfect workspace. What does it look like? Describe it in 5 sentences.

Where is your desk?

Is there something on it?

What colour are the walls and the furniture?

Did you decorate the walls?

Is there a window in the room? Is there natural light or a lamp?

Start with:

My perfect workspace is in the office/at home. My desk...
